[Feb 2020 - Dec 2021] Strengthening the waste management of vaccines and vaccines communities at the Ministry of Public Health and EPI points/facilities that provide immunization service in Lebanon.

SUSTAINABLE AGRICULTURE & ENVIRONMENT

Highlights

COVID-19 WASTE MANAGEMENT

In 2003, with help from the EU and AECID (Spanish Agency for International Cooperation and Development), arcenciel developed a network for Infectious Healthcare Waste (IHCW) to better address the untreated disposal of infectious hospital waste.

Today, the network treats more than %80 of the health care waste generated in Lebanon.

This year, 4.692 tonnes of infectious waste were processed of which 1,203 tonnes were COVID-19 waste from 332 clients all over Lebanon, including the Red Cross centers.

This wine comes with a mission, empowering local produce and arcenciel's 5 core programs, working towards a better sustainable tomorrow filled with consumption and contribution.

In addition to that, arcenciel treated COVID 19 and vaccine waste in collaboration with UNICEF and the ministry of Public Health.

BEIT EL MOUZAREH EXPANSION

Throughout the 2021, arcenciel has opened 4 additional points of sales (Le Mall Dbayeh, and arcenciel centers in Clemenceau, JisreilBacha, Domaine de Taanayel) and increased the number of producers in the network.

Beit El Mouzareh, or the house of the farmer, is an initiative by arcenciel – agriculture program to empower local farmers and producers from the Bekaa region and elsewhere by bridging the gap that separates them from consumers.

Through disintermediation, cutting the "middlemen", and capacity building, we aim to improve the quality and reduce the cost of sustainable agriculture for all the value change. Access to machinery, packaging and information-sharing are offered all year long. Besides that, Beit el Mouzareh organizes events and festivals, throughout the year and a seasonal farmer market at the "Domaine de Taanayel" every Sunday.

HEALTH

2021 was marked with a severe shortage of medication supplies in the country, accompanied by an unprecedented increase in prices caused by the devaluation of the Lebanese currency and the reduced government subsidies. Through the Social pharmacy arcenciel secured medication to more than 4500 Patients all over Lebanon (%70 suffer from chronic conditions, and life-threatening diseases.)

Medications were financed by donors or secured directly from donations in several countries.

YOUTH

More than a hundred young people youth between 24-14 years old benefited from circus and climbing sessions through tailor made toolkits developed by youth leaders, to support the healing process of Post-Traumatic Stress Disorder (PTSD).

SCOUTS FROM FRANCE

arcenciel hosts international volunteers. The experience is designed to open each participant's eyes to the inner workings of a social enterprise, giving them the opportunity to actively participate in on-going projects, and to forge meaningful connections with underserved and vulnerable communities in Lebanon.

During 2021 summer, 30 scouts from Scouts et Guides de France were hosted during July and August 2021. They fulfilled their international solidarity projects working with people with disabilities or social difficulties in our wheelchair and carpentry workshops and cafeteria.

BEIRUT BLAST

Following the August 4th explosion in Beirut, an emergency response for the glass waste was funded by AFD to reduce the amount of broken glass going into the surrounding dumpsites, which were already above capacity.

The plan allowed arcenciel to set up a glass crushing operation to process the 12,000 tons of glass that were collected from all over Beirut following the explosion.

The final product, will be used to rehabilitate an empty quarry. This initiative allowed us to further expand the recycling spectrum of arcenciel, and will pave the way for a new sustainable activity for the recycling of glass across the country.

PERSONAL TESTIMONIALS

arcenciel keeps working for many people affected by the blast, by supporting in the rehabilitation of their houses and furniture. Faten, an old lady living with her husband, expressed that "La Brocante did not only fix our furniture but it restored our memories", "after the blast, we felt alone and left behind but arcenciel stood beside us, it meant the world to us".

El Manchara arcenciel

Hind Abbas, is a 42 year-old Lebanese woman, mother of 9 whose husband has a physical disability preventing him from working. They all live in one room but that did not stop her from starting her own convenience store without having any experience in the field "This project gave me psychological and moral push to become a leader in my business."

Now I am able to meet the needs of my home and family, in addition to increasing capital and goods"

Hind Abbas project Juniclair

Nezha is a Syrian woman, living in a refugee camp in central Bekaa. Mother of 6 children (one of them with disabilities) she started her initiative in the camp by opening a clothing store for the whole camp, in a room inside the tent in which she lives. "This training helped me gain confidence in my enterprise, and gave me the ability to cope with difficult circumstances and added confidence in myself and my enterprise, hope in life and continuity"

Nezha Al Basra project Juniclair

Wael Al-Lahham, Syrian used to own a shoe manufacturing and repair shop in Syria that he had to abandon in 2011 due the war. In Lebanon he found himself with three kids, only depending on UN assistance. He was able to open a small business and buy the machines needed to continue the professional path he started in Syria. "Now I feel someone in the community through this small project, and I am able to enter to my house with bread in my hand and I can afford my son's school allowance"

Wael Al-Lahham NEF Siraj center project

EVENTS

CHRISTMAS MARKET (BEIRUT SOUKS, CITYMALL...)

arcenciel christmas market took place throughout seven days, an entertainment program while supporting local products and other Lebanese small businesses. Cirquenciel, arcenciel's social circus, talented performers and many amazing bands were there too to entertain people throughout the Christmas Market experience!

BROCANTE FAIRS (KAFAAT, IRAP, BATROUN...)

MUSIC CONCERT IN CLEMENCEAU CENTER

CIRQUE SHOWS IN NUMEROUS SETTINGS

Experienced a range of social engagement and fun youth experiences to enhance their mental and physical wellness during the current social problems faced by the country.

SKATE PARK LAUNCHING IN HORSH BEIRUT

The project is part of the rebuilding of Beirut, following last August's explosion in the city's port. While helping to rejuvenate the area, Snoubar skatepark will be one of the first public skateparks in Lebanon, which will support the sport's growing popularity in Beirut. arcenciel have also partnered with M.L.S.L and Just Childhood, who offered free skate lessons to children and young adults living in the nearby Shatta refugee camp.

THE 2021 ARAK FESTIVAL

Took place in July, at Khan El Maksoud. In its fifth edition, the festival offered an open buffet of Lebanese mezzes and barbecue. Dabke dance, oud music, traditional board games, competitions, and a palm reader were at the rendez-vous! All the benefits generated from the Arak festival go to arcenciel's social and environmental initiatives.
